

Using i>clicker next semester?

It's not too late to order for fall classes!

Using i>clicker in 2010 is as easy as 1-2-3

1. Give your bookstore the i>clicker ISBN: 0-716779390.
2. Make sure the bookstore has a clicker for your student – ask them to order for you! We have a generous return policy so bookstores can feel comfortable ordering all the i>clicker remotes your students need.

3. Order your i>clicker instructor kit by contacting your local i>clicker representative, Brenda Bravener-Greville, at bbravener@iclicker.com.
4. Sign up for one of many live, online i>clicker webinars to get started. Simply register for the session of your choice at: <https://iclicker.webex.com> or contact Brenda to schedule an in person training session.

Worried about student costs?

i>clicker partners with most major publishers, which means that students can take advantage of savings through a textbook + i>clicker package or a coupon

representative for more information and to inquire about the ISBN you will need to place your order.

Also keep in mind that many campus bookstores offer buy-back programs for used i>clickers. Please inquire with your bookstore for more information.
